

DECK CRANES & DAVITS

C-Quip has a wide variety of cranes and davits designed to suit most applications and situations. We manufacture from carbon fibre, aluminium or stainless steel. Safe working loads and boom length are tailored to suit your specific requirements.

Our Carbon Fibre Deck Cranes embody sophisticated elegance with powerful lifting capability and have fixed or telescopic hydraulic booms. The slew can be from 0-360 degrees.

C-Quip developed the world's first carbon fibre Lloyds certified SOLAS and MCA approved Rescue Boat (MOB) Crane.

We are familiar with the challenges of designing a crane to perform to specific requirements whilst having to fit into limited and tight spaces.

6.6m TELESCOPING
KNUCKLE BOOM CRANE

- Hydraulic Deck Cranes
 - Fixed Boom
 - Telescoping Boom
 - Knuckle Boom
 - Telescoping Knuckle Boom
 - Underdeck Mounted Cranes
 - Telescoping Stand Pipes
- Rescue (MOB) Cranes – Lloyds approved SOLAS and MCA approved – (the world's first)
- Manual Cranes & Davits

Also see Tender Garage Cranes for C-Quip beam cranes and under-deck cranes.

TECHNICAL INFORMATION

DECK CRANES & DAVITS

- Weight capacity from 50 kilograms to 10 tonnes
- Hydraulic or manually operated
- Telescoping options
- Lloyds approval to IMO, SOLAS or MCA specifications for rescue (MOB) boats where required
- Custom built to any length
- Available in clear coat carbon fibre finish or painted to match the colour scheme of the yacht

FULLY INTEGRATED CONTROL SYSTEMS

- Programmable tender pick-up positions
- Fully wireless proportional remote controls including full safety features
- Full PLC control system with touch screen controls and auto fault analysis
- Can be operated from ships emergency power supplies
- Complete proportional hydraulic valve system with over load protection
- Finest stainless steel hydraulic components
- Fully integrated with ships alarm systems

AFTER SALES SERVICE

- All cranes are tested and pre commissioned in our workshop prior to delivery
- We have technicians who can work with you on the installation and our after sales support is backed by service engineers worldwide
- 24 months warranty from date of commissioning
